Does your child receive educational assistance at school? Would they benefit from one-on-one support within camp or development of an individualized behaviour support plan prior to participation?

To ensure your child has the best possible experience and receives the support they need, families are encouraged to arrange additional support prior to program participation. The Supported Child Development Program (SCDP) through VIHA works with families through offering observations, resources, ongoing support and training. We recommend contacting them early as demand is high.

Not eligible for SCDP support or would your child benefit from development of an individualized support plan? Contact Ryan Smith at [rsmith@panoramarec.bc.ca](mailto:rsmith@panoramarec.bc.ca) to discuss.
